

#_____

For this portion of the experiment, you will be asked to match recorded speech to the contexts provided. Although the provided context sentences are similar to what was actually said during the interview, these are not the actual sentences. All speech is taken from previously recorded interviews at the school. The speech you will hear is always two different utterances containing the word 'like'. For each question, the utterances are spoken by the same girl.

For each question, please read the two sentences. Then, match each example of 'like' that you hear to the sentence you feel it is MOST LIKELY to have come from. Circle (a) if the sentence goes with the first 'like' you heard, and circle (b) if the sentence goes with the second 'like' you heard. Please do not circle both (a) and (b) for any given question. Please answer all questions.

Work quickly and don't worry too much about your answer. There are no right or wrong answers here- I am simply interested in your intuitions regarding these words.

1st sound 2nd sound

1. a.) I was like... b.) I was like...

...gonna go til I heard that.

a b

... "Go and grab it."

a b

2. a.) He was like... b.) He was like...

... "What's that?"

a b

... wearing this kind of visor thing.

a b

3. a.) It's like... b.) It was like...

...something I've heard before but different.

a b

... some guy she met at a party.

a b

4. a.) He's like... b.) You're like...

...hoping for the impossible.

a b

... "Huh?"

a b
